

Staying Safe Online

Has someone you've **NEVER MET** in person said these things to you?

It's our little secret

It would make me so happy if you... ;)

I'd love to see you naked

You're so much more mature

These are common traps set by predators!

I hope we can meet in person soon

Is it OK that I'm older?

Your parents will never understand you like I do

I'm so glad I met you
